

BLANCA NÚÑEZ

About me

I'm Blanca Núñez, a graphic design student at CES Design in Madrid. I began my studies in 2022 and will graduate in 2026.

I consider myself a highly empathetic person and someone that can handle stressful situations well. Before finishing my degree, my goal is to gain international experience through an internship abroad. I am particularly interested in exploring new technologies, branding, art direction, and web design. However, I am also a highly adaptable and resilient person, always eager to take on new challenges and learn from them.
